

# ARIZONA SILVER BELT.

VOLUME XXV. No. 22.

GLOBE, GILA COUNTY, ARIZONA, THURSDAY, SEPTEMBER 25, 1902.

Established 1878

## PRESIDENT'S TRIP ENDS SUDDENLY

Submits to a Surgical Opera-  
tion and Returns to  
Washington.

### CONDITION NOT SERIOUS

Local Mining News. President Smith of the  
Old Dominion Expected Here Next Satur-  
day. Federal Smelter Makes a Better  
Rate on Ores. Leasers will Begin Work.

INDIANAPOLIS, IND., Sept. 23.—Presi-  
dent Roosevelt's western trip came to  
an untimely end in this city today.  
He was found to be suffering from a  
swelling of the left leg between the  
knee and ankle that required immedi-  
ate surgical attention, and instead of  
being taken to the train to continue  
his journey to Fort Wayne and Mil-  
waukee he was conveyed to St. Vin-  
cent's hospital, where he was operated  
on. The operation occurred at 3:45  
o'clock and lasted only a short time,  
after which he was taken to a private  
room in the hospital to rest. After  
taking light luncheon at 7:50 he was  
conveyed on a stretcher to his train,  
which had been backed up on a "Y"  
near the hospital, and at ten minutes  
to 8 o'clock the train left for Wash-  
ington.

The first public knowledge of the  
true state of affairs was through a bul-  
letin, which was issued by Secretary  
Cortelyou, and in a short time the  
newspaper offices were the center of  
excited crowds.

The swelling of the president's leg,  
which made the operation necessary,  
was occasioned by a bruise he received  
at the time of the trolley accident at  
Pittsfield, Mass., when the president's  
carriage was run into and demolished  
by a car. Beside being injured in the  
face and across the eye, the president  
at that time received a blow upon the  
lower part of the left leg, between the  
ankle and knee, but he paid no atten-  
tion to it, ignoring it as being only a  
slight bruise, not worth talking about.  
For several weeks he took no heed of  
it, but finally it began to pain him so  
as to enforce his attention. After start-  
ing on his western trip he determined  
that some one, perhaps Dr. Lutz, who  
was aboard the train, should examine  
it. The doctor did so, and pronounced  
it a serious matter. When in Detroit  
the doctor finally decided that some-  
thing would have to be done. After  
consulting with Dr. Richardson, an-  
other member of the party, it was de-  
cided that in order to avoid the possi-  
bility of blood poisoning it probably  
would be wise to have an operation  
performed.

### LOCAL MINING NEWS.

Our Weekly Resume of Mine Development and  
Operations in Globe District.

General Manager Chas. H. Cutting,  
of the Troy-Manhattan Copper com-  
pany, expected to leave New York for  
the west this week, and will probably  
visit Globe on his way to Troy.

Leslie C. Mott, of the Pacific Coast  
Smelting & Refining works, is still  
here, awaiting the result of negotia-  
tions between his company and the  
railroads for a rate on ore shipments,  
which will probably be announced  
within a few days.

V. V. Clark, M. E., of Albuquerque,  
N. M., arrived last Sunday, and with  
his father, C. C. Clark, went out to  
Pinto where they will erect a concen-  
trator for the Pinto Creek Mining and  
Smelting company. The machinery  
is being hauled to Pinto creek this  
week.

We understand that the United  
Globe has obtained from the Federal  
smelter, of El Paso, a flat rate of \$13  
per ton on copper ores shipped from  
Globe, and payment to be made by  
the Federal on a basis of three cents  
below New York quotations on elec-  
trolytic copper. Leasers are preparing  
to take out ore for shipment.

The requisite assessment work for a  
group of contiguous or adjoining  
claims can be done on any one of them  
if the work on the claims thus associ-  
ated can be shown to be beneficial to  
all—that is, it must manifestly tend to  
the development of all the claims in  
the group. The aggregate amount of  
the expenditure of money or labor on  
one claim for this annual assessment  
must equal in value that which would  
be required on all the claims if they  
were not adjoining or if under separate  
ownership. —Mining and Scientific  
Press.

At the Old Dominion a second notice  
was posted last Friday afternoon,

notifying all employees to call at the  
office and get their time, which was  
construed to mean that the shut-down  
would continue for some time. Coke  
and oil, ordered before the decision to  
close down was reached, has arrived  
in considerable quantities during the  
past week, but it is now about all in.  
The installation of the Stirling boilers  
at the smelter is nearing completion.  
Only a very few men are now em-  
ployed by the company.

Word has been received that Presi-  
dent Chas. S. Smith, of the Old Do-  
minion, and Wm. Garland, president  
of the G. V. & N. Ry. Co., are ex-  
pected to arrive here from New York  
next Saturday night. From the fact  
that they are traveling together it is  
generally assumed that an agreement  
on freight rates has been, or will be  
reached that will enable the Old Do-  
minion to resume operations. Doubt-  
less, President Smith's visit here will  
result in definite plans being adopted  
by the Old Dominion company.

#### Territorial and General.

Assayer Mitchell of the Copper  
Queen mine, states that he has five  
men now working on his property near  
Silver City, N. M. Below the 200-foot  
level they encountered ore which run  
\$111. They are putting in extensive  
machinery upon the property.

Prest James Colquhoun, of Clifton,  
who has been in Scotland since last  
spring, is expected to arrive in the big  
copper camp during the next few days.  
It is expected that, on his return, Mr.  
Colquhoun will announce some further  
improvements to be undertaken by  
the Arizona Copper company.

The management of the United  
Verde mine at Jerome, Ariz., is drown-  
ing the fire now burning with carbonic  
dioxide. The plan is essentially the  
same as first devised by the Calumet  
& Hecla at the time of the second great  
fire in that mine, some fifteen years  
ago. Big steam boilers are used as  
generators, and carbonic acid gas is  
made in them from the action of sul-  
phuric acid on crushed limestone and  
forced into the mine, under the nat-  
ural pressure and gravity, the gas be-  
ing heavier than atmospheric air.  
With the mine openings carefully  
sealed this gas will eventually drown  
the flames as effectively as water, and  
cannot ruin the mine openings, as wa-  
ter would. The process is slow, but  
sure, and the United Verde manage-  
ment is showing commendable wisdom  
in taking this bull by the horns, as the  
fire has been burning for more than  
two years, and fire in a big body of  
sulphide copper ore is about as bad as  
fire in a coal mine—even worse in  
some cases. —Western Mining World.

#### The Copper Situation.

The copper market has been quiet,  
but the advance in prices has been  
fairly well held, with only a slight re-  
action. The disposition continues to  
be evident in some quarters to depress  
the market, and a flood of circulars  
and other literature has appeared  
most of it being entirely unworthy of  
notice. Some business continues to  
be done, chiefly for next year's deliv-  
ery, at current prices.

The report of Mr. John Stanton, who  
acts as statistician for the companies,  
shows that the total production of the  
United States in August was 25,266  
tons, which is an increase of 2,629 tons  
over August, 1901. In the eight  
months to the end of August the  
United States production shows a total  
of 192,593 tons, or 14,447 tons more  
than in the corresponding period last  
year. The exports from the United  
States for the past eight months have  
reached the large total of 123,128 tons,  
very nearly double that for the first  
eight months of 1901. The present  
conditions show that the supply is not  
at all in excess of consumption and  
that there is no reason to fear any ac-  
cumulation of stocks.

The statement of current stocks  
compiled by Dr. Ledoux, which was  
published in our columns, is being gen-  
erally accepted by the trade in spite of  
all the efforts made to discredit it, and  
there is every reason to believe that it  
represents the actual state of the case;  
that is, that there is no accumulation  
of copper at the present time beyond  
the normal stocks which must always  
be carried. —Engineering and Mining  
Journal.

#### Geological Report on the Globe District.

A New York dispatch says: Dr. F.  
L. Ransom has completed a compre-  
hensive report on the geology and ore  
deposits of the Globe copper district of  
Arizona for the United States Geolog-  
ical Survey. The region is dissected  
by a remarkable network of faults, of  
various geologic ages, and the occur-  
rence of ores is related to some of the  
older of these fissures.

The copper ores hitherto mined in  
the district have been oxidized, and  
are consequently free from sulphur,  
but the exploitation of deeper sul-  
phide ore is yet in its infancy. The  
district has produced in the neighbor-  
hood of 120,000,000 pounds of copper.  
The greater part of this output has  
come from the Old Dominion mine,  
which has for years been working

large bodies of oxidized ore found in  
the limestone occurring by the side of  
a strong fault.

During the present season, Dr. Ran-  
som is to continue the investigation of  
the copper deposits of Arizona by  
undertaking a detailed geologic study  
of the Bisbee district, in which is the  
well-known Copper Queen mine.

Mr. and Mrs. Fred G. Pendleton  
have sustained a heavy bereavement  
by the death of their little son, and  
only child, Harold, which occurred at  
noon today from scarlet fever, after  
an illness of only three days' duration.  
The burial, which will be necessarily  
private owing to the nature of the  
disease, will take place tomorrow at 10  
o'clock, a. m. The sorrowing parents  
have the sympathy of their friends  
and acquaintances in this community.

The Globe Times of today contains  
a discreditable and untruthful state-  
ment of the Atherly affair, to which  
we have not the time or space to reply  
in this issue.

Registration to date numbers about  
700 names. Quite a number of those  
who registered here have gone away  
since the Old Dominion closed down.

### THE IRRIGATION CONGRESS

Unusual Importance Attaches to the Approch-  
ing Session at Colorado Springs.

The tenth national irrigation con-  
gress, composed of delegates from the  
cities, counties, boards of trade, com-  
mercial, agricultural, live stock, engi-  
neering and other organizations in the  
arid states, is to meet at Colorado  
Springs from October 6 to 9. William  
E. Curtis, the well-known correspond-  
ent of the Chicago Record-Herald,  
says, "the meeting this year will be of  
unusual importance and interest be-  
cause of the passage by congress of an  
act providing that which the congress  
was originally organized to secure."  
This law commits the nation to a new  
policy that affects directly over 500,-  
000,000 acres of land in sixteen states  
west of the Mississippi river. It pro-  
vides for the expenditure of \$10,000,000  
in the construction of irrigation  
works within the next two years, and  
the importance of the principle involv-  
ed is even greater than the amount of  
the appropriation. Everybody in the  
arid regions is directly interested in  
its application and practical develop-  
ment and the expenditure of the money,  
and patriotic citizens in the east  
must share in the responsibility of the  
enterprise.

"The reclamation of the vast arid  
sections of the country and their set-  
tlement in small, irrigated farms, will  
make an immense difference in the  
prosperity and profits of the agricul-  
tural population of the states east of  
the Mississippi river, and will make it  
possible in the future to cover the bar-  
ren prairies of the great plains and  
the plateaus of the Rocky mountains  
with a population more dense than  
any farming community in the world."

"The spirit and action of the con-  
gress will have a decided effect upon  
the future legislation by the national  
government, and, for the welfare of  
the west and the whole country  
his recommendations should be wise,  
sound and businesslike, such as every  
patriotic citizen may approve. It is  
hoped that organizations entitled to  
representation will send their best men  
to the congress, men who appreciate  
the magnitude and importance of the  
movement in which they are en-  
gaged."

#### Col. J. F. Wilson's Speaking Dates.

Colonel Wilson's itinerary, to which  
he will adhere as closely as possible, is  
announced as follows:  
Flagstaff, September 22.  
Octave, September 25.  
Congress, September 26.  
Phoenix, September 27.  
Florence, September 28.  
Mesa, September 30.  
Tempe, October 1.  
Yuma, October 7.  
St. Johns, October 7.  
Winslow, October 11.  
Holbrook, October 13.  
Tucson, October 18.  
Nogales, October 20.  
Tombstone, October 21.  
Bisbee, October 22.  
Douglas, October 23.  
Globe, October 25.  
Safford, October 27.  
Morenci, October 29.  
Clifton, October 30.  
Phoenix, November 1.

C. R. Rogers, who attended the  
Elks' grand lodge session at Salt Lake  
and afterwards made a tour of the  
coast, returned home on Monday  
night, having stopped at Mesa for a  
week to visit his wife. He contracted  
a severe cold at San Francisco, which  
marred his pleasure somewhat in  
California, but he is now almost re-  
covered. The republicans took advan-  
tage of "Chuck" in his absence and  
nominated him for sheriff, but he  
has accepted and intends to make a  
vigorous canvass.

## HARRY W. NASH FUNERAL RITES

Impressive Ceremony Conducted  
by the Globe Lodge  
of Elks.

### LOCAL NEWS OF THE WEEK

Wrangle Among Pinal County Democrats Causes  
a Split. Two Tickets Placed in Field.  
Residents of Troy Poisoned by Adulter-  
ated Pepper. The Globe Schools.

The funeral of the late Harry W.  
Nash, who died at Manila, Luzon, on  
July 5, last, took place last Sunday af-  
ternoon from Odd Fellows' hall under  
the auspices of Globe lodge, No. 489,  
B. P. O. Elks. There was a large at-  
tendance of sympathizing friends of  
the bereaved sister, Mrs. J. H. Thomp-  
son, acquaintances of the deceased,  
and members of the Woman's Relief  
corps and Elks lodge.

The casket, containing the remains,  
draped with two large flags and cov-  
ered by floral offerings, occupied a po-  
sition in the center of the hall.

The service was conducted by Ex-  
alted Ruler J. N. Star, assisted by the  
other officers of the Elks' lodge, and  
was both appropriate and impressive.  
The music was furnished by the Globe  
band and by a choir composed of Mes-  
sieurs Wiley and Patton, and Messrs.  
Brookner, Wiley, Collins and Young,  
with Miss Walton at the piano.

The pallbearers were W. A. David-  
son, of Roosevelt's Rough Riders, G.  
W. P. Hunt, Frank P. Sleglitz, and  
members of Globe lodge of Elks Ben  
Fox, Herbert Fox and Robt. G. Good-  
win.

At the conclusion of the service in  
the hall the cortege formed and, pre-  
ceded by the band playing a dirge,  
wended its way slowly to the cemetery,  
where the reading of the ritual was  
concluded and each Elk reverently  
cast a spray of ivy into the grave.  
Cornetist Bennett then sounded taps  
and the band gave a fitting end to the  
ceremony by rendering a beautiful  
selection of solemn intonation.

Harry W. Nash was born at Mount  
Sterling, Ind., September 9, 1869. He  
attended school at Vevay, Ind., and  
the Du Pau university, Greencastle,  
Ind., and soon after completing his  
education, removed to Globe, Ariz.

After war with Spain was declared,  
Mr. Nash enlisted in the First U. S.  
volunteer cavalry, known as Roose-  
velt's Rough Riders, and served with  
credit in Cuba, participating in the  
battle of San Juan Hill and other no-  
table engagements.

A year ago last December he went  
to the Philippines and accepted a po-  
sition as school teacher, and for a time  
prior to his death had supervision  
over the schools of a district. His  
death occurred after a brief illness  
from cerebral hemorrhage.

Mr. Nash being a charter member  
of Manila lodge of Elks, that organi-  
zation took charge of his remains, had  
them embalmed, held an impressive  
service, assisted by the Rough Riders'  
association of Manila. An eloquent  
eulogy was delivered by Chas. Burritt,  
superintendent of the Philippine  
Mining bureau, and beautiful floral  
offerings were contributed by the Elks  
and Rough Riders' association. The  
body was shipped in the transport  
Buford in care of the San Francisco  
lodge No. 3, B. P. O. E., and by them  
forwarded to Globe, the Manila lodge  
defraying all expenses.

### LOCAL NEWS.

Robert E. Morrison, republican nomi-  
nee for delegate to congress, opened  
his campaign at Prescott last Monday  
night. He will devote three weeks to  
the northern counties, and will speak  
at Phoenix on October 15. His south-  
ern itinerary has not been made up,  
but he will visit Globe near the close  
of the campaign.

A social club was formed last night  
by a number of the young men of  
Globe, the object being to give enter-  
tainments during the fall and winter.  
The officers of the club are: Presi-  
dent, Cy Byrne; secretary, Robt.  
Reilly; treasurer, J. W. Wilkinson.  
Committee on entertainment, E. T.  
Stewart, Oscar Ingram and Harry Sul-  
tsb. Entertainments will be given in  
Fireman's hall.

We are in receipt of a letter from J.  
F. Hechtman, dated at New York,  
September 19, in which he states that  
the physicians at the Post Graduate  
hospital pronounce his wife's trouble  
to be incurable. A second operation  
was to have been performed by a spe-

cialist, on the following day, which it  
was expected would afford some relief  
and might add some years to her life.  
Mr. Hechtman expects to take his wife  
to Chicago next week, to consult a  
German specialist. He will return to  
Globe with his wife in three or four  
weeks.

F. L. Jones received a telegram yester-  
day afternoon from Chas. F. Pas-  
coe, undertaker, of Clifton, stating  
that Emma Schulze, daughter of  
Charles Schulze, died in Clifton yester-  
day, and asking what disposition  
should be made of the body. The rela-  
tives here were informed of the  
death, and a reply was sent directing  
that the remains be buried there. De-  
ceased has been absent from Globe  
about twelve years.

George Bird, who sustained an inju-  
ry some time ago and has been making  
good progress towards recovery in this  
respect, has begun to show some symp-  
toms of illness. Mr. Bird enjoys the  
friendship of very many of our people,  
who hope he may not grow worse, but  
may soon take his accustomed place  
among us. —Bisbee Review.

### PINAL DEMOCRATS SPLIT

Truman Delegates Withdrew and Held a Rump  
Convention—Two Tickets in Field.

A Florence, Ariz. dispatch of Septem-  
ber 23, to the Tucson Citizen, says:  
The democrats of Pinal county met in  
convention here yesterday and split  
up into two contending factions.

The fight was over the office of  
sheriff, the present incumbent of that  
office, W. C. Truman, and T. W. Wills  
being candidates.

Truman had twelve votes and Wills  
twelve. Tom Weedon, who was man-  
aging Wills' fight, secured the tempo-  
rary organization by contesting the  
Florence delegation and depriving  
them of any voice. This caused ugly  
feelings, as it seemed to be understood  
that some of the votes pledged to  
Truman would be thrown out.

Truman and his followers left the  
convention and organized one of their  
own. As a result two full tickets were  
named, centering around Truman and  
Wills, the candidates for sheriff.

It is understood that twenty of the  
twenty-four votes were pledged to  
George P. Blair for councilman, but  
when the convention split he declined  
to allow the use of his name.

The following is the Wills ticket  
complete:

Council—Charles Lucas.  
Assembly—Pete Schilling, L. C.  
Herr.  
Recorder—Tom Peyton.  
Probate Judge—Charles Douglas.  
Treasurer—W. Swingle.  
Supervisors—Alex Barker, W. C.  
Smith.

And here is the Truman ticket:  
Council—John Cavanaugh, of Troy.  
Assembly—C. D. Reppy, Bob Bolan.  
Recorder—Dick Hickey.  
Sheriff—W. C. Truman.  
Probate Judge—J. C. Harris.  
Treasurer—W. Herrington.  
Supervisors—Alex Barker, W. C.  
Grande, George Acton of Casa Grande.

Cool-headed democrats are at work  
trying to get the factions to get to-  
gether, and it is believed that a com-  
promise will be reached as soon as the  
weather gets a little cooler.

Los Angeles papers state that a  
letter from Dr. W. L. Woodruff, of  
Troy, Arizona, was read at a meeting  
of the Los Angeles board of health, in  
which the writer complained that  
ground pepper sold by a certain whole-  
sale house in Los Angeles was adulter-  
ated. The doctor stated that recently,  
while the cook was seasoning a dish of  
string beans with some of this pepper,  
the lid came off the pepper box, and  
most of the contents was poured upon  
the beans. The stuff was scraped off  
as best it could, but a good deal re-  
mained on the beans, which were not  
rendered unduly hot by the surplus of  
seasoning, but all who partook of the  
beans became ill immediately after-  
ward, the doctor himself being seized  
with a violent vomiting spell. He  
inclined to the belief that the sickness  
was caused by some poisonous sub-  
stance mixed with the pepper. A  
sample of the pepper has been sent to  
Dr. Powers for analysis, and if the  
commodity is found to be adulterated  
its manufacture and sale by the Los  
Angeles firm will be looked into by  
the health authorities.

Through the efforts of W. S. Sultman,  
who personally circulated a subscrip-  
tion paper, upwards of \$200 has been  
raised to pay the Pinal Mountain  
Water company for fire plug service  
for the year ending July 1, 1903. It  
is understood that A. Trojanovich will  
collect the balance of \$40 required,  
from property owners and residents of  
the northern part of town.

Miss Fanny Davidson, formerly con-  
nected with the Globe Times, arrived  
in Cananea Wednesday. Miss David-  
son, who is a veteran journalist, has  
accepted a position on the Cananea  
Herald. —Bisbee Miner.

### THE SCHOOL NEWS.

(Continued.)

Fred Briggs, who recently returned  
from Los Angeles, entered the High  
school this week.

A fire alarm was given at the Cen-  
tral school last Monday in the after-  
noon, and in less than one minute the  
entire body of school children passed  
out in regular order without an acci-  
dent or hitch of any kind. The fire  
company made the run in a little less  
than forty seconds.

The work in physical culture was  
begun in all the grades of the gram-  
mar school this week under the  
direction of the supervisor of that  
subject. The system which has been  
introduced here by Miss Comments is  
one of the best that has been tried in  
recent years.

The girls in the High school con-  
template organizing a basket ball club  
and a ping pong club sometime this  
week. It is also planned to hold a  
tournament early next month.

Examinations at the Central school  
will be held on Wednesday, Thursday  
and Friday of next week, and written  
reports will be sent to the parents of  
the school children on the following  
Monday. These reports should be  
countered on the back of the card  
and returned to the teacher for safe-  
keeping until the close of the second  
month.

The fifteen minute limit for tardi-  
ness has been abolished and all pupils  
who report after roll call are marked  
tardy. Parents should make an extra  
effort to have their children report at  
the various schools at least five  
minutes before the opening of each  
session.

The High school classes in advanced  
mathematics and civics have been  
assigned to Prof. Hefley. The classes  
in history, elementary algebra and  
physiology will be in charge of Miss  
Oliver, and the remainder of the  
classes in science, literature, and  
ancient and modern languages will be  
conducted by Supt. Wilkinson.

It is quite probable that at an early  
date a department of music will be  
established in the Globe Public schools.  
A competent teacher will be placed in  
charge who can give instruction in  
both vocal and instrumental music.  
Students who complete the work in a  
satisfactory manner will be granted a  
diploma of graduation by the board  
the same as for any other work of the  
school.

It may be of interest to the patrons  
of the public schools to know that the  
superintendent has made arrange-  
ments to safeguard the schools in  
every way against any epidemic that  
may appear in our city this year. The  
various physicians here have kindly  
consented to co-operate with him in  
this effort and no pupil will be allowed  
to attend any of the schools who has  
been exposed to contagious diseases.

The present enrollment numbers  
365. Of this number 68 are enrolled at  
the South Side school, 65 at the North  
Side, and 60 in the first and second  
grades at the Central school.

#### Montana Democrats—Clark in Control.

HELENA, MONT., Sept. 23.—The  
democratic convention, which met at  
Bozeman today, had but two nomi-  
nations to make, one for associate ju-  
stice of the supreme court, and one for  
congressman. Interest in the conven-  
tion centered around the action of the  
state central committee, which met  
this morning. There were two con-  
testing delegations, one from Silver  
Bow and one from Granite county.  
One of the Silver Bow delegations was  
headed by United States Senator Clark  
and the other by F. Augustus Heinze.  
The state committee by a vote of 21 to  
4 decided to seat the Clark delegation.  
The committee also decided the con-  
vention would meet at 5 o'clock with  
Senator Clark as temporary chairman.  
Under this decision of the committee  
the Clark people controlled the con-  
vention.

William Cunningham, brother of M.  
J. Cunningham, came in last night  
from Dawson, Alaska, where he had  
been to visit his aunt, Miss Nellie  
Cashman, who is known by every old  
resident of Virginia City, and all the  
old-timers of Oochish county. He states  
that Nellie is interested in a number  
of mines and is doing well. Her many  
friends in this section will be pleased to  
learn this. —Bisbee Miner.

James F. Patton, formerly a mer-  
chant of Globe, came in from Cananea,  
where he is employed in the big com-  
pany store. He is here to obtain a test  
on samples from his promising prop-  
erties at Puertocitas, about eight miles  
in a direct line from Ronquillo. —Bis-  
bee Review.

There has been an exodus of miners  
this week, owing to the shutting down  
of the Old Dominion. On Monday  
eighteen tickets were sold at the  
depot and forty-five on Tuesday, and  
the departures by train for the week  
probably exceeded one hundred.
